

**VIAST**

EDUCATE TO EMPOWER

# ABOUT US

---

*VIAST is an private higher education institute in Estonia. It has an edge over the others in terms of location, as it is situated in the heart of Europe.* Established in the year 2018, the institute operates in alliance with outstanding professors from Europe and US and Canada, we believe in giving our students the quality they ought to have, by designing pathways to knowledge sharing. VIAST welcomes students from all around the world to whole new experience of learning.

This campus was established to create a difference and alacrity amongst the students by using the best insights possible in the field of education and training.

## Knowledge

When the transition happens from being just a student to a profession, one realizes the importance of both theory and practical knowledge.

## Practice

Learning the knowledge is theory and putting the same knowledge into use is called Practice.

# OUR MISSION

---

*Our Mission is to create an accord to the society through the pursuit of learning, education, development and research bestowed at the highest standards.*

## EDUCATION

- High standards Education
- Personal Development
- Grooming for the corporate market and the global workforce
- Developing an industry-ready advanced pedagogy for higher education while making the students corporate ready

## CORPORATE SOCIAL RESPONSIBILITY

- Widest student access to the VAST
- Offer accord to the society through the pursuit and dissemination of education and application of knowledge
- A place which focuses on the broader academic pursuit and participation of the local community
- A land of opportunities for most innovative and unique partnerships with charitable foundations, business, and healthcare
- Maintaining sustainability within the environment

## VIASST STAFF

- Our greatest asset is the rewards and recognition of the VAST Staff
- Fostering the career development of the VAST Staff

## OTHER ACTIVITIES

- We put emphasis on employing the scopes for broadening our student's and staff's experience through active participation in music, sports, games and a plethora of cultural activities

***VIASST works in an Ethical Framework exclusively committed towards imparting higher education to all its students irrespective of one's ideological, political, cultural or social background.***

# OUR DEPARTMENT

---

## HEALTH CARE

Our Health care program has been meticulously designed in collaboration with top-notch healthcare domain experts. It prepares participants to handle advanced international healthcare in line with the latest in the clinical, technological, and business aspects of smart healthcare.

## SCIENCE AND RESEARCH

Research is defined as a careful consideration of study regarding a particular concern or a problem using scientific methods. "Research is a systematic inquiry to describe, explain, predict and control the observed phenomenon. Research involves inductive and deductive methods."

## IT TECHNOLOGIES

Emerging Technologies are gaining prominence due to their progressive role in practical problem-solving today. The growing dynamism in their usability has led to fast-growing, coherent, and impactful use cases in different data-driven fields.

## ENGINEERING TECHNOLOGIES

Engineering Technology oriented courses are a way forward designed to increase the capabilities of a student not only in a theoretical sense but also in development and implementation of a respective area of technology which is even more "applied" and less theoretical than science education in engineering.

## MANAGEMENT

With the study at the Institute and the first Bachelor for many students in the world only the training began. In order to get a good job with advancement opportunities, the bachelor degree and at least one academic title are now a basic requirement and a standard with which you can no longer stand out from the crowd.

## CONTINUING PROFESSIONAL DEVELOPMENT

The continuing professional development (CPD) course aims at fortifying the lifelong process of learning, skills enhancement through practical sessions, and interpersonal and professional development.

(Note: Approbation program available for Non-EU Allied Health professionals.)

---

# OUR VISION

---

Our vision is to successfully implement the mastery of knowledge among the 21st century students so that they can evolve the capability to adapt the constantly evolving societal demands. As our students live in a globally connected rapidly changing world, they are from diverse backgrounds in terms of geographically, ethnically and socio-economically. According to research data, due to this cultural diversity, students learn better and differently.

At VIAST, we are strictly committed to adopting the offerings in the contemporary setting to meet the requirements of the students through the pursuit of the diverse learning styles inside and outside the classroom. We believe in the opportunity to deepen the learning process through curricular and pedagogical innovation while advancing the science of learning. We develop and adopt technology while assisting the instruction, assessment, and accessibility.

# OUR CORE VALUES

## **ACADEMIC EXCELLENCE**

At VAST, we callously adhere to our tradition and history that acts as a strong commitment to our individual learners and teachers who are actively involved in the process of growth and development. Our qualified and diverse faculty promotes a very rich environment of engaged learning, critical thinking, supportive learning, research, creativity, and a challenging environment. We are committed towards an active academic environment which fosters lifelong development of the scholars, learners, mentors, and teachers.

## **EDUCATIONAL OPPORTUNITY**

VAST values an enriched educational opportunity and welcomes students who show willingness and promises to work towards clinching shared educational goals. VAST is devoted to offering the students accessible and higher standards of career development and educational programs.

## **PERSONAL GROWTH**

As VAST, we focus on the overall development of the person. VAST is strictly adhered to provide the scope for the personal growth in an enriched environment which enhances the development of ethical decision making, wellness, and personal responsibility.

## **SOCIAL RESPONSIBILITY**

VAST is pledged to social justice, equity and diversity while maintaining the highest standards of integrity in our way of approaching to others. VAST is the homeland of enormous resource and the stimulus to the educational, cultural, environmental, economic, and community development in the global workforce.
